MESSAGE FROM HOD

The process of learning is extremely important in life. What you learn, how you learn and where you learn play a crucial role in developing ones intellectual capability, besides career.

The excellent infrastructure, teaching faculty of the best kind ensuring quality education such as interaction among students, parents and staff, along with a Training and Placement Cell ensures a bright future to its students. Thus we are confident that our students will emerge as assets not only to this institution and to the organization they belong, but also to the country at large.

On our part we can assure you of our wholehearted support whenever and wherever it is desired. Together we have a great future. We look forward to keeping you apprised of our progress as we more into that future with great optimism.

I look forward to seeing the juniors taking up the reigns of this magazine in future, so that this tradition remains eternal.

Warm regards,

Dr. Saurabh Goel

Details of Various Events Held

QUIZ COMPETITION ON 23rd FEB 2012

Computer Science & Engineering Department has organized "QUIZ COMPETITION" on 23rd Feb 2012. Overwhelming response from the students was witnessed in the event. 120 students registered themselves on the event.

Winners of competition were:-

1st Prize Ms. Nimisha Agarwal (CSE III Year)

2nd Prize Mr. Priyanshu Kansal (CSE III Year)

3rd Prize Mr. Naman Jain (CSE II Year)

QUOTE OF THE MONTH

"If faith in ourselves had been more extensively taught and practiced, I am sure a very large portion of the evils and miseries that we have would have vanished."

-Swami Vivekananda

Vision

To be recognized globally for delivering high quality education in the ever changing field of computer science & engineering, both of value & relevance to the communities we serve.

Mission

1. To provide quality education in both the theoretical and applied foundations of Computer Science and train students to effectively apply this education to solve real world problems.
2. To amplify their potential for lifelong high quality careers and give them a competitive advantage in the challenging global work environment.

Puzzle

We have a pair of scales, with a block of lead on the left scale, and a block of wood on the right scale. Both blocks have the same weight, so the scales are in balance.

We take the scales with the blocks and immerse them in an aquarium filled with water. Will the scales stay in balance, will they turn left, or will they turn right?
