About (Learning Resource Centre)
The Learning Resource Centre (LRC) the nerve centre of Raj Kumar Goel Institute of Technology take pride in its State of the art Infrastructure and Resources. LRC is one of the best maintained libraries amongst the Ghaziabad-NCR. LRC is fully automated with rich print and online resources with more than 80,000 Books, 3250 CD’s, Educational CD’s DVD’s, CD-rom, Data CD’s, Engineering & Management, ELSEVIER, ERMIT & DELNET Database. All LRC in-house operations are fully automated through Library Software with OPAC facility to students, faculty and others to access LRC. All the LRC resources are available on LAN/WAN, which propagates the concept of “Anywhere, Anytime LRC Access”.

About the “KOHA” Workshop
The purpose of this workshop is to provide training to library professional by providing adequate practical knowledge which will enable them to initiate digital library projects and automate the libraries on their own by using open source software.

KOHA is the first open-source Integrated Library System (ILS) developed in 1999 by Kilopop Communications, New Zealand. Includes modules for Circulation, Cataloging, Acquisitions, Serials, Patron Management, branch relationships, and many more features. Koha is built using international library standards and protocols that ensure interoperability between Koha and other systems and technologies, while supporting existing workflows and tools. The focus will be given on KOHA: open source software and which are freely available on Internet and can be customized according to end user’s. Workshop will provide hands on exposure to KOHA Software (version 3.14.13) and each module including Installation of the DVD. Bootable DVD and a user manual will be provided to participants to install KOHA.
