Commandment

from the Founder

We are building our Institute as an ideal family, the **RKGIT PARIWAR** where members strive for the development, well being and promotion of each other.

अज्ञानेनावृतं ज्ञानं ।

श्रीमद् भगवद् गीता अध्याय 5, श्लोक. 15

Prof. S.C. Gupta

MESSAGE

It gives me immense pleasure to be a part of 'News & Views', the monthly newsletter of the RKG Group of Institutions. It really acts as the window through which every one is well informed about the creativity, innovations and other activities of all the departments and institutions of the Group. It is this interaction which cements brotherhood and thereby promotes the growth of every one of us.

To our students, I wish to share that it is our will and deeds which make us what we are today and a regular introspection is a must for shaping up the future. We all have the power to make ourselves what we want to be, by directing all our efforts towards that. So I advise all the young ones to direct their thoughts, actions and energies in realizing their worthwhile goals.

Prof. S.C. Gupta
Director, RKGEC

FROM THE DESK OF THE EDITOR

Farewells were the flavour of the season. Farewells are a way to ensure a lifelong relationship with past students. It is a way of showing your affection for the out going students. This edition of News & Views covers these events held at RKGCMT and RKGIT (MBA) respectively. It also features an article on how to be careful while using prescription drugs. The various development activities undertaken by the various faculty members to enrich themselves have also been included.

Looking forward to your constructive contributions.

Prof. Arvind Singh

Principal - RKGIT (MBA)

News from LMR Scout and Guide Camp organized

Lala Mangat Ram Mahavidyalaya organized a week long Scout and Guide Camp from 28th April, 2010 to 4th April, 2010. The event commenced with a welcome note by Dr. A. C. Sharma, Director of the Institute. Shri Ram Krishan Sharma, Scout Master, took charge of the boys and girls and gave them a thorough training during the Scouts and Guides Camp and its importance.

Students were taught Life Saving Skills, Tent Pitching and they participated in various cultural activities. The camp ended with the lively band welcoming the honourable Chairman and guests, which was followed by a delicious lunch prepared by the Boy Scouts and Girls Guides of the institute.

News from RKGCMT

A farewell party was organized on 9th May 2010, at RKGCMT, Garhmukteshwar to bid adieu to the dear students. Prof. B.K.Gupta, Dr. Arvind Singh, Mrs. Kusumlata Tyagi and Mrs. Jaya Kandpal were the honourable guests. A number of activities were organized for students, who participated with full enthusiasm and won several prizes. Prof. B.K. Gupta and Dr. N.K.Rai (Director RKGCMT) bestowed their blessings and gave their best wishes to the students. Students were also awarded certificates and medals for the activities in which the students had participated the whole year round.

A delicious lunch was organized at Hotel Skylark. All the members of RKG Pariwar wished the dear students all the very best for their future.

GOEL GROUP OF

News from RKGIT(MBA) Farewell Party 2010

Students of MBA I year organized a farewell party for their seniors on 11th May 2010. The programme was inaugurated by Prof. B.K. Gupta, Advisor, RKG Group of Institutions, Prof. M.P.Jakhanwal, Director, RKGIT and Prof. Arvind Singh, Principal, RKGIT (MBA) by lighting a lamp and offering flowers to the 'Goddess Saraswati'. The function started with the recitation of 'Saraswati Vandana' by the first year students. The Advisor gave his blessings for the bright future of the students. He encouraged the students to face the various challenges of the business world with a positive attitude. Dr N.K. Rai, Principal, RKGCMT and Prof S.N. Dubey were present during the function to guide the students in their career development. The Director conveyed his personal felicitations to the students and his belief in them to contribute their efforts for economic and social development. It was an emotional moment for all the students and faculty members. To make the environment lively, various cultural programmes were organized. Everyone enjoyed and praised the performances by the students.

For a few hours, students had great fun and masti, keeping aside the challenges they had to face in the outer world. The function included a Bharatnatyam by Rachita Manglik and a sizzling performance by Mohit Sharma. Students of MBA first year expressed their views and respect for their seniors in the form of titles. Musical Antakshari and a ramp show charged the environment and made the audience sing and tap their feet to the music. The programme ended with the blessings of Dr. Arvind Singh. He asserted that all past students possessed a never ending relationship with the organization. They all are the proven assets of RKGIT and an inspiration for future batches.

Total quality Librarian: An Indian Perspective

Parul Sharma, *Librarian*,

Raj Kumar Goel Institute of Technology

A paper published in National seminar on Role of Quality in management and library system: Issues and challenges, 2009 held at ICFAI Business School (IBS), Noida on 27 April 2009, Delhi. Published by Book Age Publications, Delhi, pp229-241.

Abstract

The Library science profession today is at the crossroads of diversified factors involving management of several different tasks hitherto not handled. Quality management concepts and methods have begun to penetrate the libraries. This paper is an attempt to highlight, in a nutshell, how library schools can gear up to take the challenge of the new millennium to prepare the right type of professionals. Present rapid development in the communication system and recent innovation in technology witnessed in changing emphasis necessitate the information professionals to be exposed to new technologies.

Keywords: Quality in Librarian, Librarianship, Information Technology, ICT in Library Science.

Know About Prescriptions

Sonal Setya

Asstt. Professor
College of
Pharmaceutical
Science, RKGIT

Prescription drugs as is evident from the very name are those that are prescribed to us by a doctor to cure our illness. These drugs are not illicit and almost all of them are readily available in the retail medicine stores. But there are quite a few crucial things enlisted below that we ought to keep in mind regarding the prescription medicines. Prescription medicines can be habit forming. Due to the relief that these medicines provide, people take them persistently or indefatigably. Anti depressants, painkillers, methamphetamines are the drugs that cause addiction universally. People overlook their addiction to the drug and try to hide it in the name of comfort and the medicine's prescriptive nature. But the fact is that only illegitimate drugs do not entail drug abuse. The recommended lawful medicines too can be the cause of serious drug abuse. So an excess dosage of prescriptive drugs is also fatal. Before investing your hard earned money in the drugs advised to you, it is better that you know completely about them. Do not hang back in informing your physician of all your bodily problems. If due to some reason you suspect that the prescribed drug can cause trouble, confirm it with your doctor first.

Ask for alternatives to antibiotics. Antibiotics are famous for their side effects. Most people are not able to bear these offshoots. So, asking for substitute mild medicines is not a bad idea.

Requesting for herbal medicines or other natural cures can save you from the hefty expenditure that is incurred on their purchase. Generally prescription drugs are too costly for everyone to afford. Therefore, natural cures like taking a diet rich in a particular nutrient, exercising daily to minimize pain in joints and other preventions and treatments like acupuncture etc. can be certainly favorable.

Buy genuine medicines. The market is flooded with counterfeit or fake medicines. These products contain nothing or very little of the active substance. Make sure that you check the MRP, expiry and manufacturing date on the cover before paying for the medicine. Ask for discount if any on your purchases and don't forget the bill.

Never exchange and transfer medicines. Though saving money is imperative yet health (the most precious wealth) is not to be compromised upon. Often people pass on their medicines to others who they believe are undergoing a problem similar to what they confronted. But this very act is not just wrong even illegal. When a doctor prescribes you a medicine he takes into notice your whole physical and psychological condition. Just as one size does not fit everybody, similarly, a single medicine cannot be positively effective in every case. In fact, many a time there can be serious

repercussions because of the chemical reactions that take place within the body after taking the drug.

Pharming is another issue associated with prescriptive medicines. Pharming designates the swallowing of many tablets together in chorus. Teenagers to adults are found practicing pharming. They do it to save the effort of taking the different medicines time and again. But preventing oneself from this little exertion can be critical. The medicines are scheduled differently so that the body's internal mechanism can accommodate itself and absorb the chemical reactions. While if they are gulped simultaneously, there is an acute threat of various spontaneous mixed reactions in the body that might go out of control.

Dispose of medicines properly, never throw trash or expired drugs in the toilet or down the drain. It can harm the environment in several ways.

Last, but not the least, consult your pharmacist for any information on drug use and its various aspects. Prescription drugs, if used judiciously can have a positive impact on the quality of the life of people.

Students Corner Test your mind

I am part of the bird that's not in the sky.

I can swim in the ocean and yet remain dry.

Who am I?

The higher I climb, the hotter I engage.

I cannot escape my crystal cage.

Who am I?

A very pretty thing I am, fluttering in the sky.

Delicate fragile on the wing, indeed I am a pretty thing.

Who am I?

Which candle will burn longer, a blue or a green candle?

Two hours ago it was as long after 1 o'clock in the afternoon as it was before 1 o'clock in the morning. What time is it now?

The more of these you take, the more appear behind you.

I pass before the sun yet make no shadow.

What am I?

There is no friend as loyal as a book. — E.Hemingway

Soul Byte

Modern Panchtantra

Once upon a time, there was a software engineer who used to develop programs on his Pentium machine, sitting under a tree on the banks of a river. He used to earn his bread by selling those programs in the Sunday market.

One day, while he was working, his machine tumbled off the table and fell in the river. Encouraged by the Panchatantra story of his childhood (the woodcutter and the axe), he started praying to the River Goddess. The River Goddess wanted to test him and so appeared only after one month of rigorous prayers. The engineer told her that he had lost his computer in the river.

As usual, the Goddess wanted to test his honesty. She showed him a match box and asked, "Is this your computer?" Disappointed by the Goddess's lack of computer awareness, the engineer replied, "No."

She next showed him a pocket-sized calculator and asked if that was his. Annoyed, the engineer said "No, not at all!"

Finally, she came up with his own Pentium machine and asked if it was his. The engineer, left with no option, sighed and said "Yes".

The River Goddess was happy with his honesty. She was about to give him all three items, but before she could make the offer, the engineer asked her, "Don't you know that you're supposed to show me some better computers before bringing up my own?"

The River Goddess, angered at this, replied, "I know that, you stupid donkey! The first two things I showed you were the Trillennium and the Billennium, the latest computers from IBM!" Saying this, she disappeared with the Pentium!!

Moral: If you're not up-to-date with technology trends, it's better to keep your mouth shut and let people think you're a fool than to open your mouth and remove all doubt.

Many Many Happy Returns of the Day
