About the company:

OpenText is a global, publically-traded Canadian software company with more than 5000 employees in over 60 offices around the world. Global leader in Enterprise Information Management. Our software solutions help large enterprises manage and secure their unstructured digital data – the kind that doesn't easily fit into the rows and columns of a database – and use it to benefit their business and gain competitive advantage.

OpenText is a profitable business with seasoned leadership and a proven formula for success. In addition, we have momentum in a large and rapidly growing market. The EIM market is projected to grow at 10% from \$13B today to \$19B by 2016. Many enterprises have fully extracted value from their structured information (ERP systems) and are now transferring their budgets to EIM.
