Aditya Mishra (3rd Year) | Alka Singh (3rd Year) | Palluck Srivastava (3rd Year)

Divyanand Kumar (3rd Year) | Saurabh (3rd Year) | Achyut Pandey (3rd Year)

Rukaiyya Naaz (2nd Year)

# Webinar on MEAN Stack

Department of Information technology, RKGIT organised an Online Workshop on 'MEAN Stack' on 8th of June, 2020 inculcating the corresponding skills in more than 150 students.

The Speaker, Mr. Rahul Pathak ,an expert in MEAN Stack from CETPA institute took over the Webinar to give lessons on various aspects of 'MEAN Stack'. The Instructor gave brief yet deep insights on the concepts of 'Mongo DB, Express.js, AngularJS Node.js' and 'Deep learning', using client side and server side execution environments. Attendees learnt flairs of dynamic web sites too.

On a whole, the Webinar turned out to be great and successful. Because, what else can be better than learning new things when idle!

# Pens Down in Lockdown

"Pens Down in Lockdown" an interesting event was organized by IT Department on 5th and 6th August 2020. The aim of this event was to enhance the writing skill and also to indulge the students to write down something creative. All the imaginary & analytical skills were checked. This event was only for the IT Department and the participation was also in good number. Definitely it was a kind of transition from boredom to enjoyment. Online presence of this competition made everything go hand in hand.

The topics were as follows:
1. If you could go back in disguise and give the 18-year-old you and advise, what would it be, and why?
2. If you get a chance to change one decision during this pandemic what would it be.
3. It was definitely worth a try....
4. What changes would you make so the rich stop getting richer and poor stop getting poorer of you had the control?
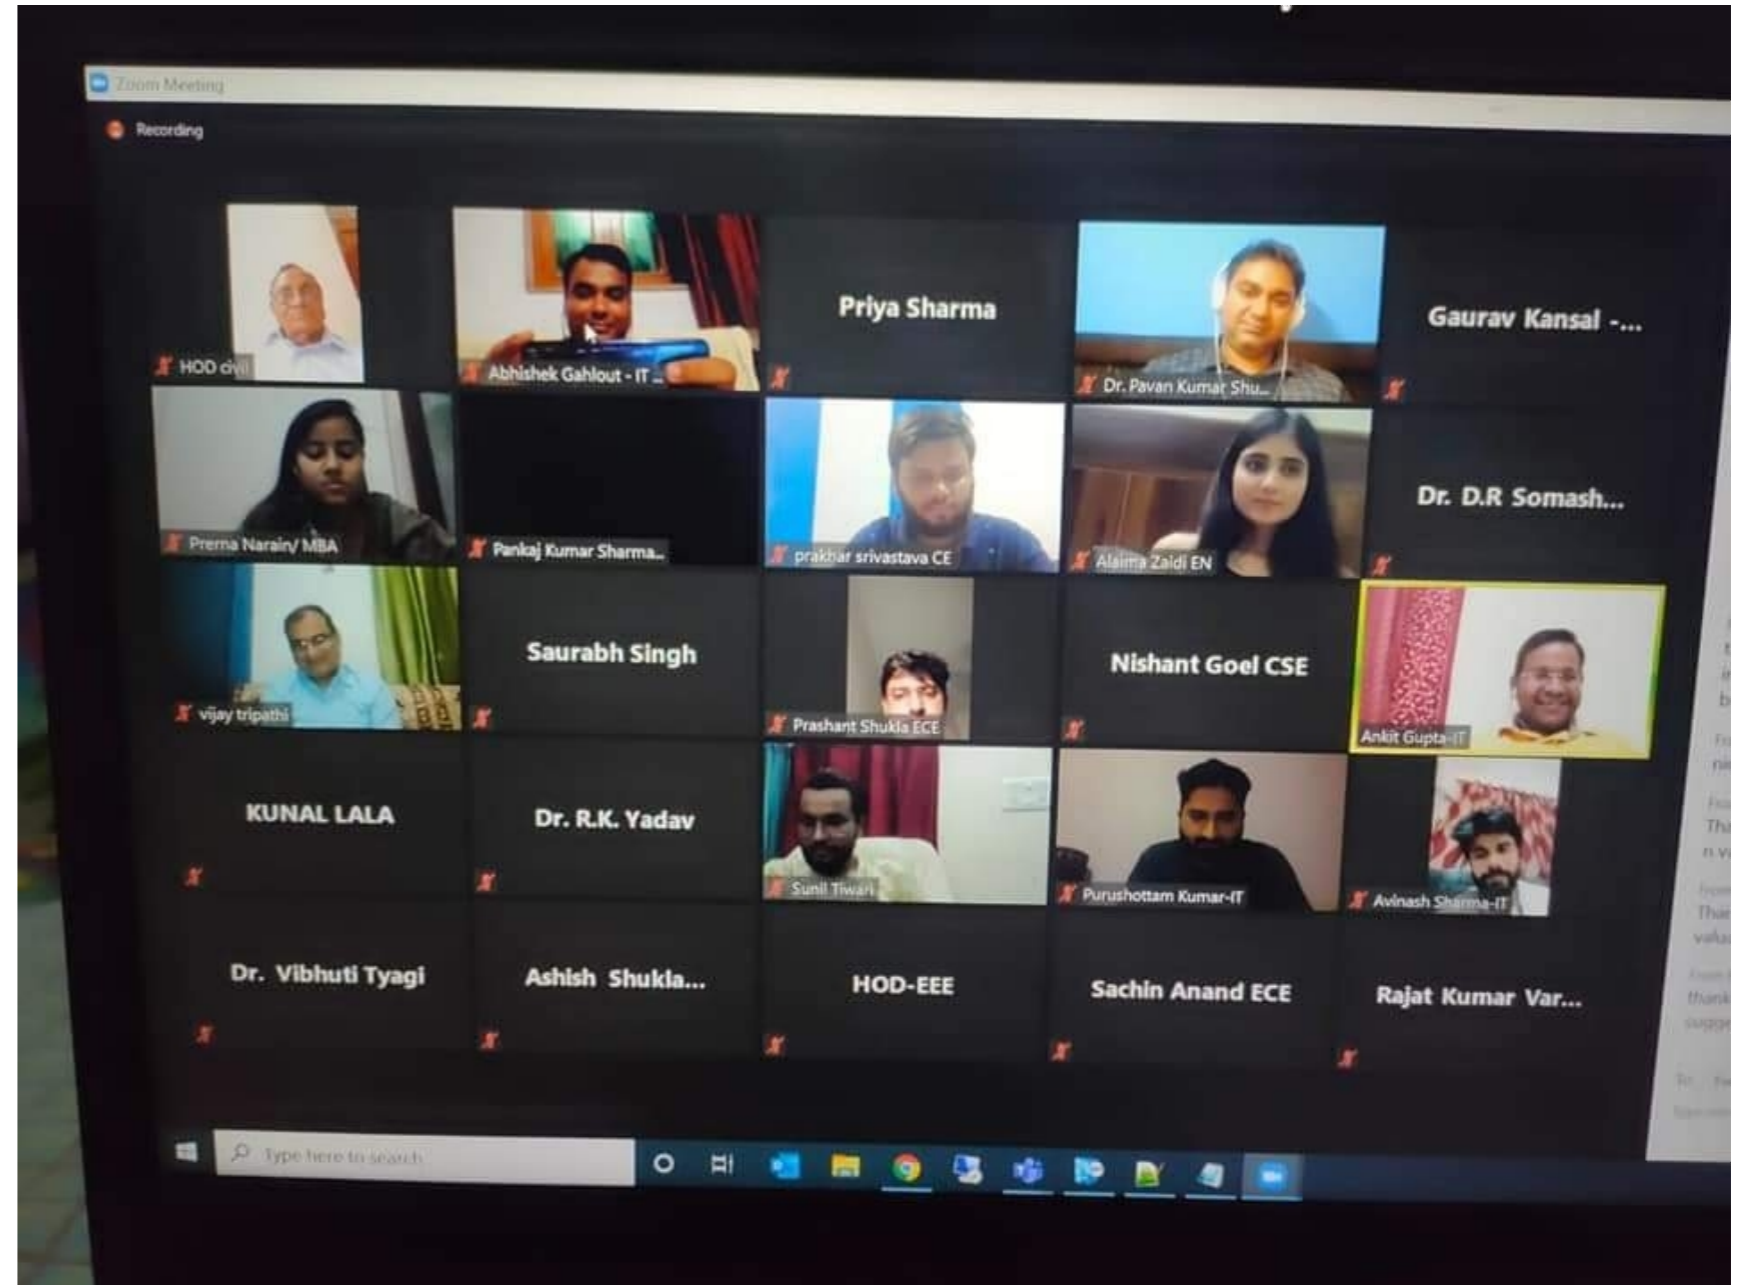

Obviously, an event without winners is incomplete. So, here we have the talented students who performed really well in this event.
1st Position: Palluck Srivastava
2nd Position: Sanjay Kumar

# Alumni Meet

Raj Kumar Goel Institute Of technology
ALUMNI (IT Department)

This year due to the pandemic our college opted for a virtual Alumni meet. It was held successfully on 25th July, 2020 in the honourable presence of all the dignitaries and other higher authorities. We as a family of RKGIT firmly believe that an institution's alumni are the reflection of its past, representation of its present and a link to its future.

The event started with some formal and informal sessions with the active participation of every member present there. Along with the mesmerizing memories, the vision to success was discussed. The main motive of the event was to form stronger alumni relations and opportunities to influence the experience of prospective and current college students.

## Alumni Meet Feedback

# Prateek Dhawan

Rank – Lieutenant.
Designation – Platoon Commander

RKGIT offered me a very good learning environment, excellent teachers, infrastructure and library facilities. I have been able to develop as a student by knowledge acquired and as a person due to encouragement I received by all. The organization provided so many facilities for learning and updating our knowledge.

# Avinash Sharma

Negwen Technologies, New Delhi

Hi everyone, I'm Avinash Sharma an alumni of RKGIT IT department. Currently I'm working as a software engineer at Newgen technologies delhi. Today I want to share my experience of college life. As we all know college life is known as one of the most memorable years of one's life. RKGIT exposes me to new experiences and things that i was not familiar earlier. As a student i was very serious about my studies and career. My faculty was one of the reasons of my current career and success. They always motivates me and stand as a strong pillar for me. College life poses lots of challenges in front of you but today I want to thanks all my faculty to support me to overcome those challenges. RKGIT taught me to become more confident and composed. It made me stronger and taught me to fight my own battles. Atlast i would like to end with a note that the ones who have had a college life always wish to turn back time to live it all once again. So i would suggest every student to be serious about their studies and career as well as enjoy ur college life with ur friends to the fullest.

# Teachers' Day Celebration

Teachers' day is celebrated on 5th of September in India because it is the birth anniversary of Dr. Sarvepalli Radhakrishnan, a philosopher, a teacher and a politician who devoted his life to education and guiding the country's youth.

On this occasion, the students of IT 2nd Year collectively organised a Teachers' Day event and performed various fun activities and thanked them for their efforts for the students. The teachers were very surprised by this event as they did not expect the junior most year of IT Department to host an event all by themselves. In the end, the teachers were very happy to see the students' appreciation.

–Rukaiyya Naaz
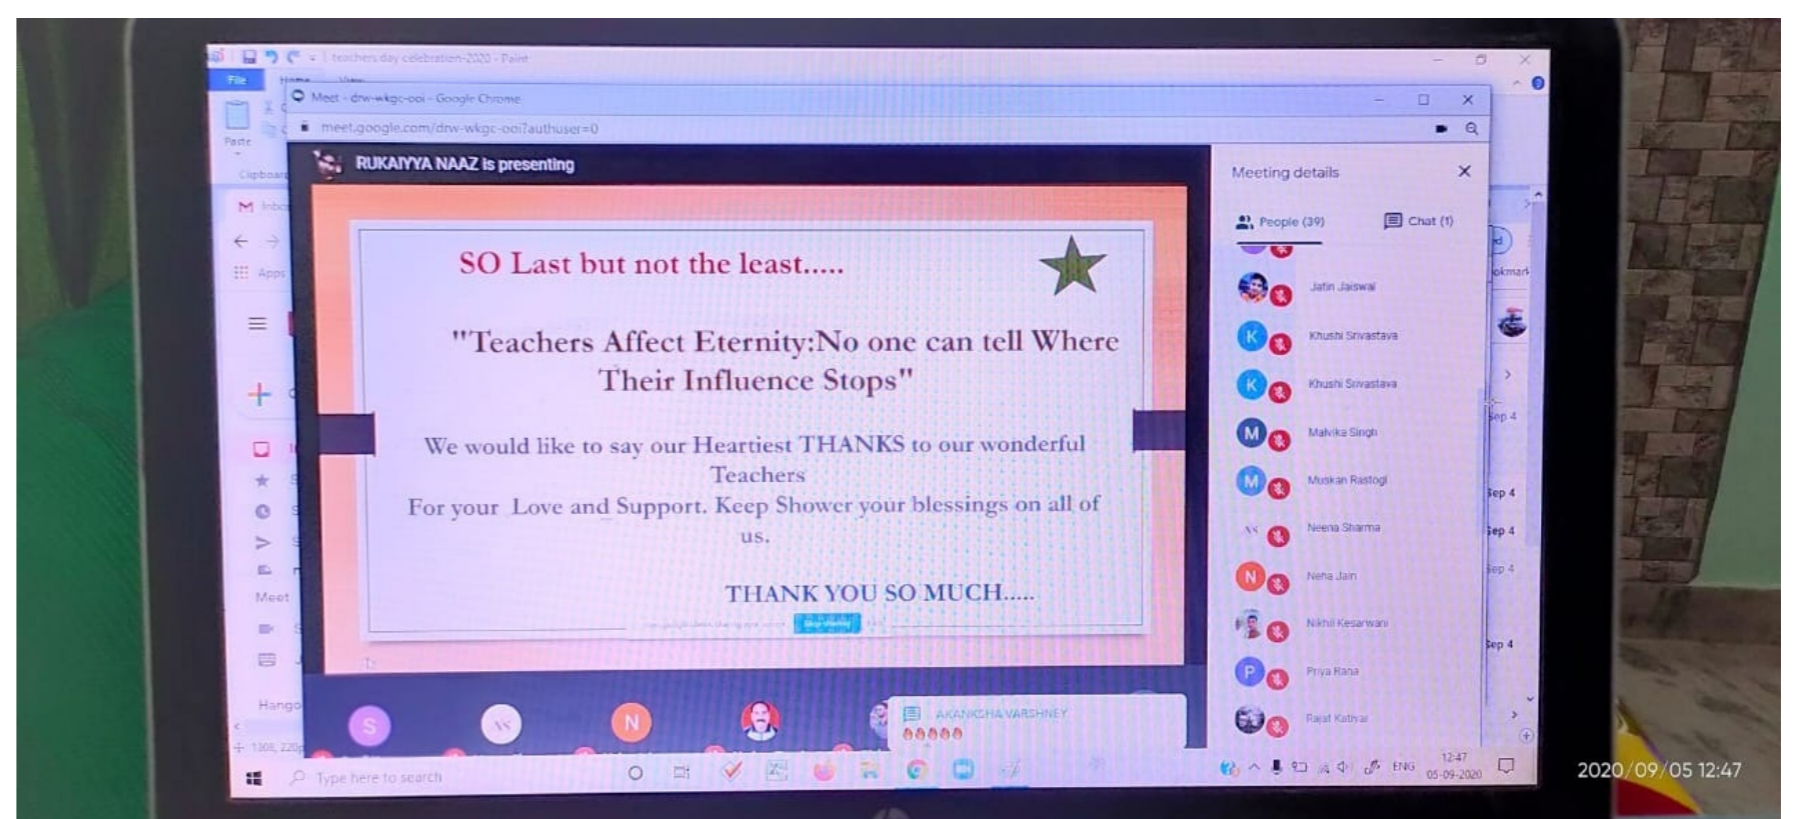

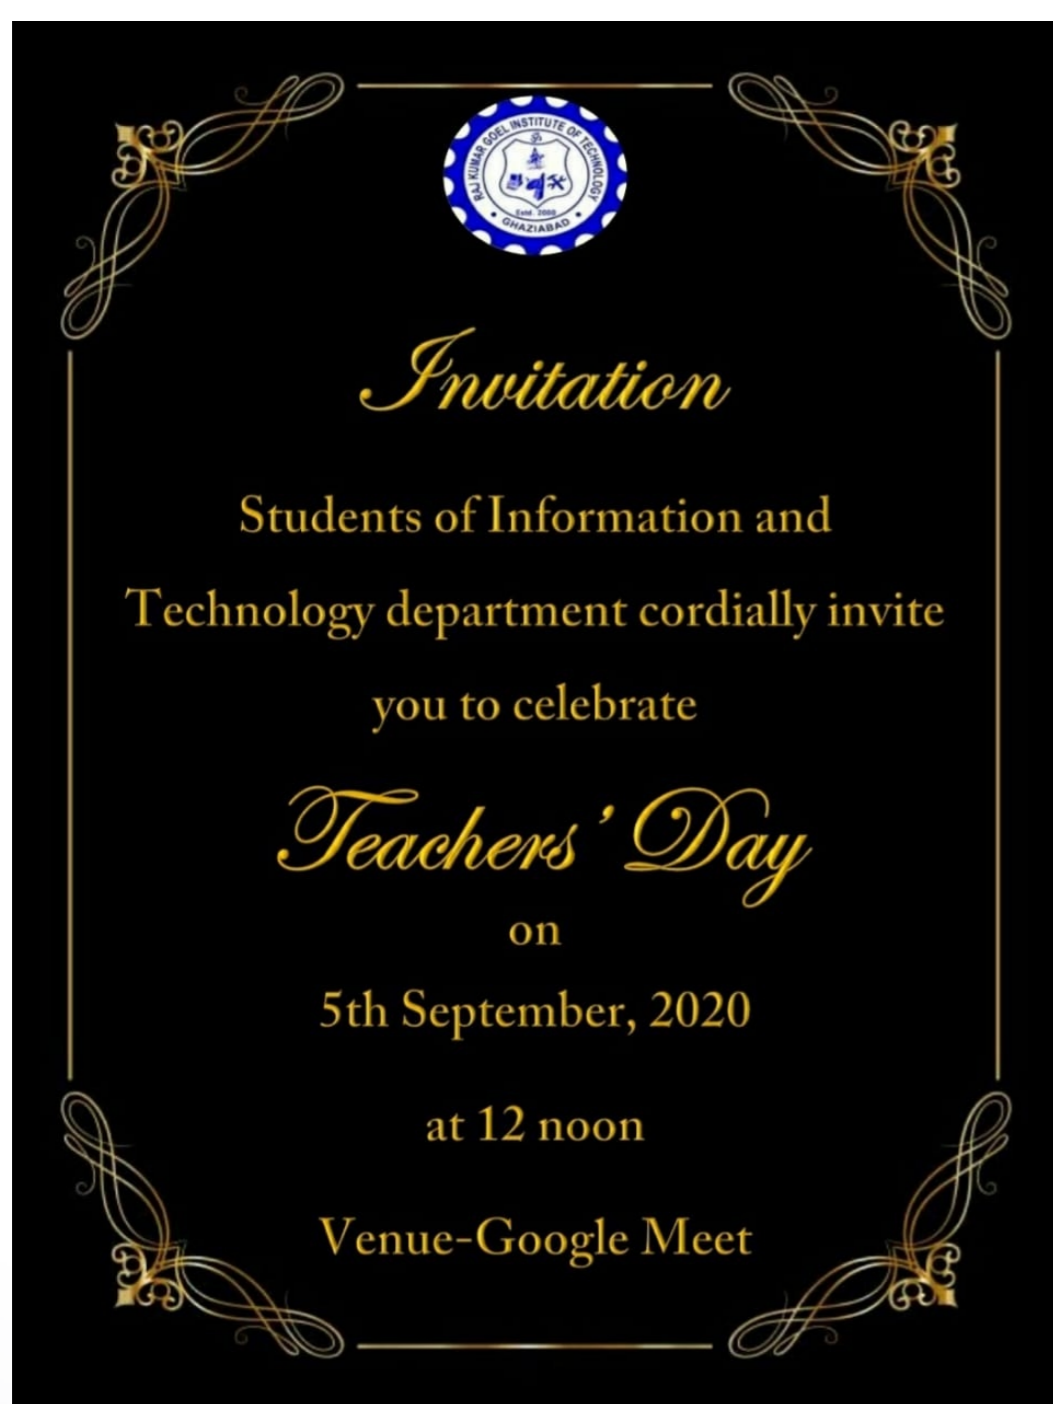

# Parent - Teacher Interaction (4th Year)

Keeping in mind the new scenarios created because of COVID-19, a virtual parent – teacher interaction was held on Google Meet in September 2020. The parents were made aware of the new strategies planned by the college and the performance of students was displayed to the parents. Along with this, CRC and the college management also spoke to the parents and cleared their doubts regarding their children's future. Several suggestions were also made by parents on how to add some activities like yoga and group discussion to be performed regularly.

– Palluck Srivastava
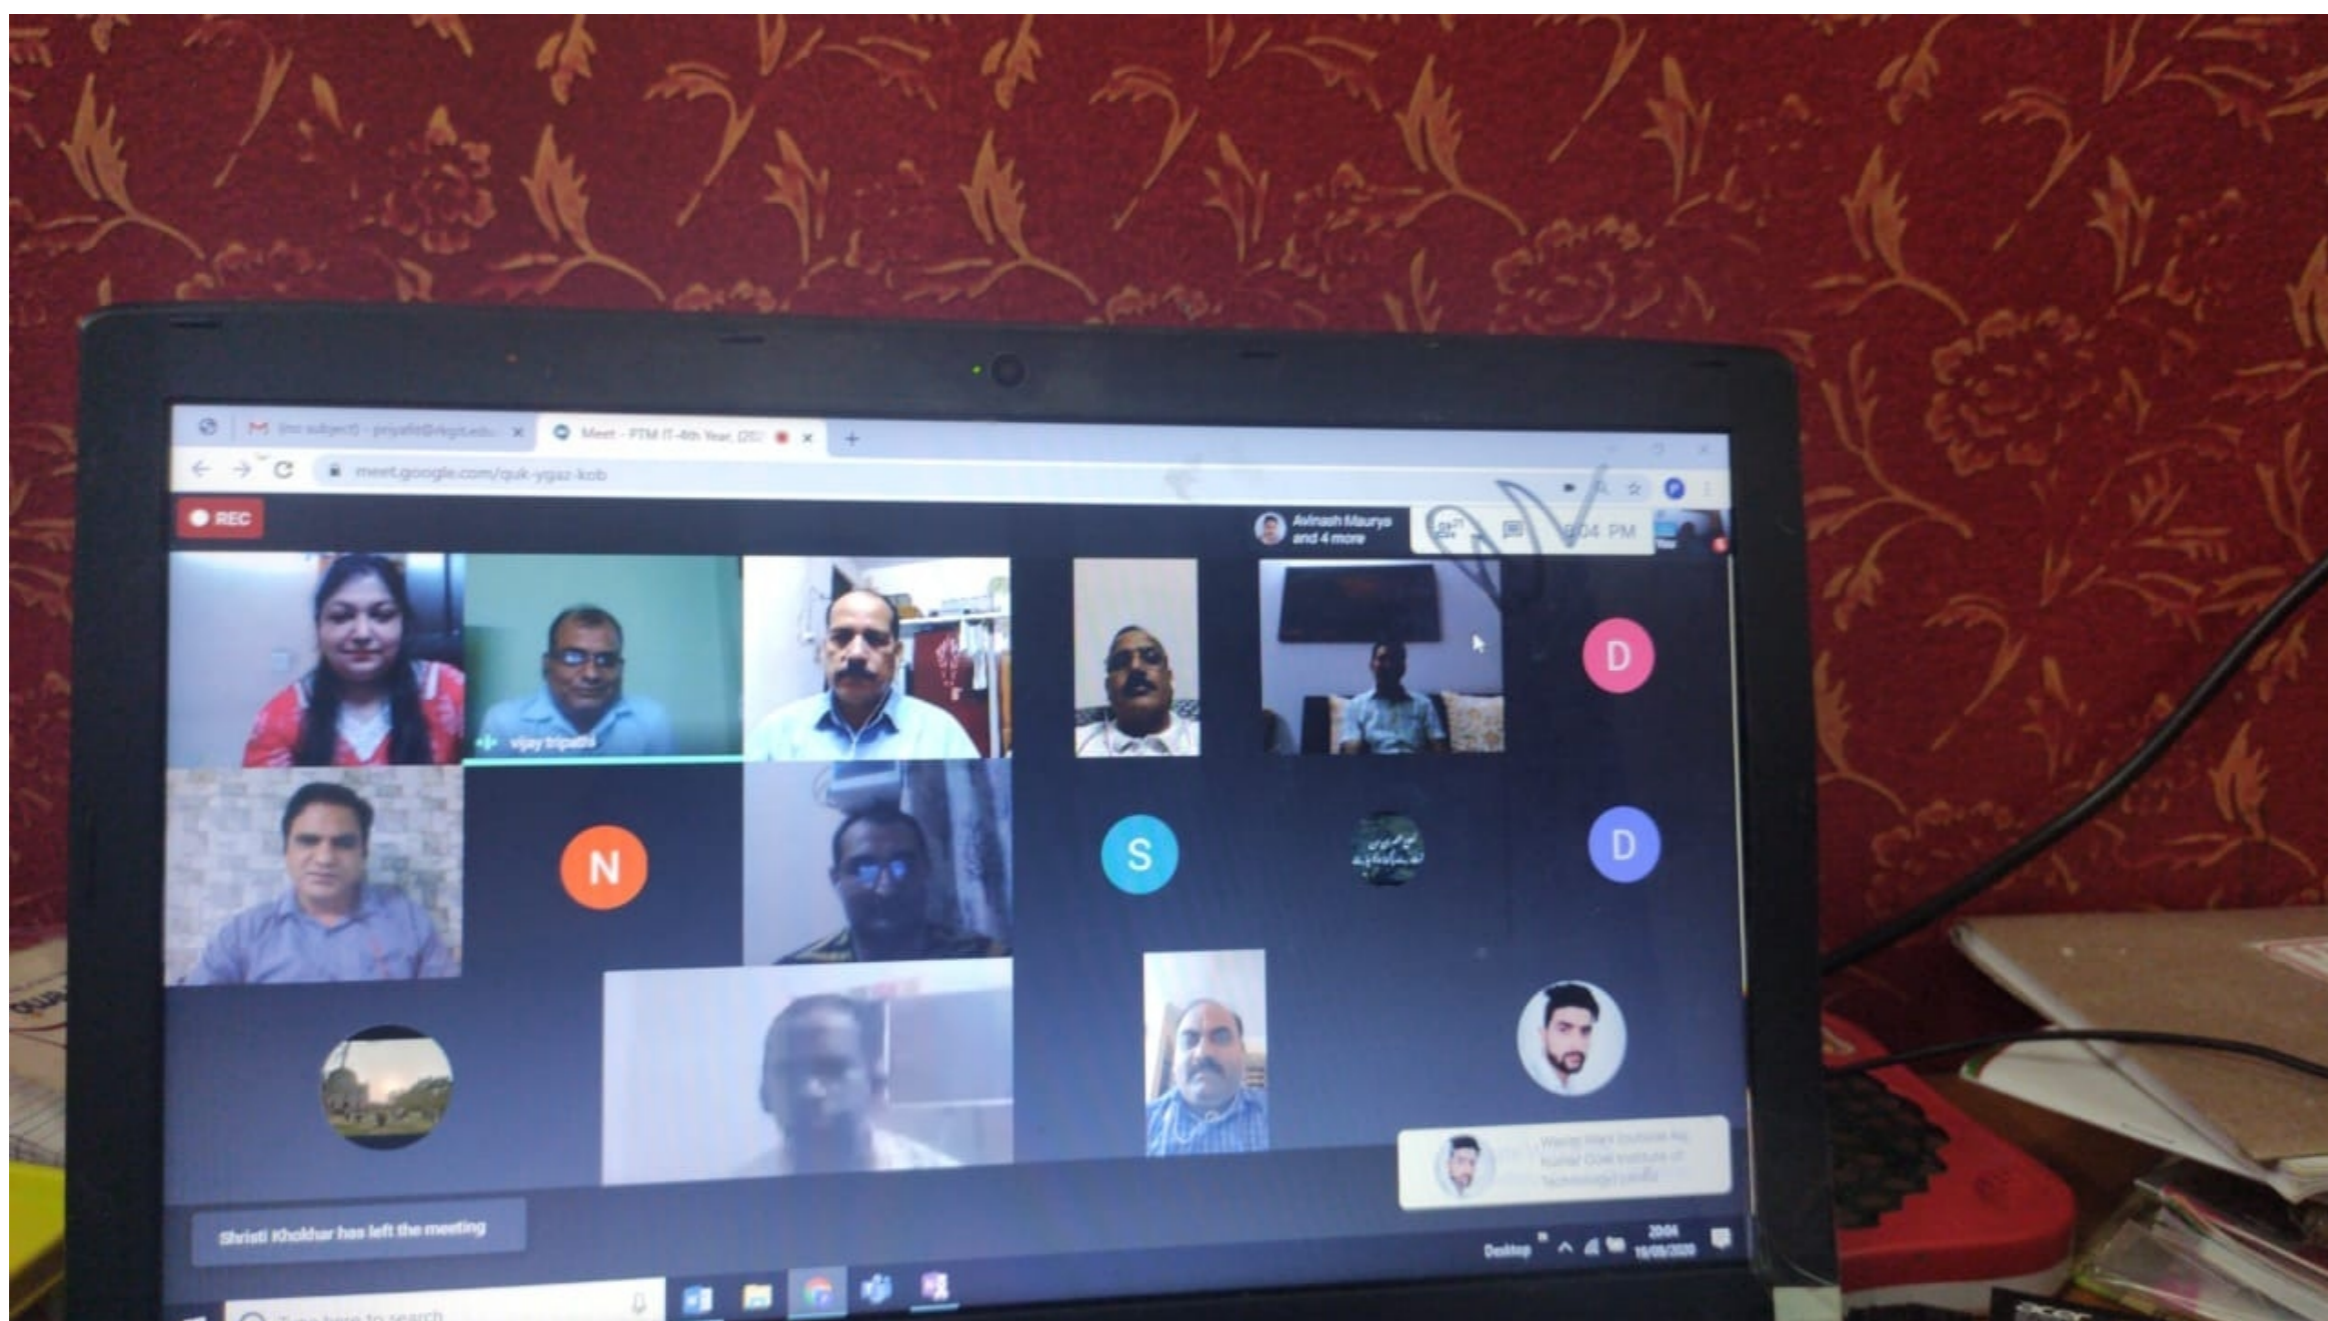

# Alumni Message

## Akansha Verma
Batch 2015 – 2019

Finding the right path to success at the right time is really very important and for that way I had selected RKGIT. The friendly environment, the systematic approach towards imparting education at RKGIT made me a competent individual.

It was a wonderful experience at RKGIT with an excellent exposure provided across the various platforms. The faculty are very supportive and encourage students to push boundaries to rise above expectations. RKGIT targets for an overall development of every student, be it education, cultural awareness or practical exposure of business world like industrial exposure. The placement activities are pretty good and come with a training given on how to conduct oneself and face interviews confidently. The ambience of the campus is very positive and the whole experience is very good and there is always support & motivation from the management to pursue our dreams

## Nawal Kishore Singh
Batch 2005–2009

Due to the continuous support and efforts made by the faculty ,management and administration of RKGIT , I was able to bag a seat at a institute like IIT–BHU for pursuin my M.Tech. They always provided me with the assistance that I required for my overall development and to improve my technical knowledge.

# Upcoming Birthdays
