Faculty Achievement

Dr. Pushendra Singh

Associate Professor,
HOD - IT Department

He has successfully published a patent.

- The patent topic was: "System and Method for Detecting Defects in an Article", dated 26th Nov 2021.
- He was the reviewer in 3rd IEEE International Conference on Advances in Computing, Communication Control and Networking, 2021 (ICAC3N-21).

V.K. Tripathi

Associate Professor,
IT Department

He successfully published a research paper.

T. V. K. Mayank Singh, "State Complexity Evaluation of Autonomous System using Deep Neural Networks", DE, pp. 13110-13124, Sep. 2021.

We wish them success for their future endeavours.

Online Webinar

Department Of Information Technology organized a webinar on **Introduction to CRM and accounting software solutions**. Webinar delivered by Varun Kumar Singh CEO-INFOSEED COMPUTERS LLC, Dubai (UAE) on dated 24/12/2021

Details

Event: -	WEBINAR
TOPIC-	Introduction to CRM and accounting software Solutions
Date of event:-	24/12/2021
Delivered by-	Varun Kumar Singh CEO-INFOSEED COMPUTERS LLC, Dubai (UAE)

Industrial Visit

Department Of Information Technology conducted an industrial visit for students of 4th Year on date 18/12/2021 at Appwars Technologies Pvt.Ltd. Sector-21, Noida (UP)

The students gained very insightful knowledge about cloud computing in a very detailed and practical manner.

Proper step-by-step instructions were also presented to show students how virtual computers can be setup and accessed from anywhere around the world with required virtual specifications.

Project Presentation

The best way to show your data to others is by giving a presentation. So, in our IT department, students are involved in many projects and they are giving project presentations which are helping them in their encouragement, communication, and increasing their confidence. The students are working on new technologies which are unknown to them, and are being guided by the respective faculties which not only help in the technical fields but also in cooperative fields. These presentations make a person more presentable and expressive to others.

This is only possible by our faculty's hard work and the supportive nature of faculty members and the HOD of our IT department.

Alumni Message

Vanshika Chauhan

(Batch 2016-20)

Software Developer,
Datopic Technologies Pvt. Ltd.

“

My four years at RKGIT have been an excellent memory to cherish for a lifetime. The time spent has been full of learning opportunities. The relationship between the students and faculty members is more like that of friends. The teaching faculty is fantastically knowledgeable. They have pushed me all the way to succeed in my career. I have learned from amazing teachers and mentors. I loved the freedom that college gave me, which prepared me to face the real world and be an independent achiever. The college also has a wonderful track record of organizing various industrial visits, guest lectures, and conferences which gave the industry exposure and a practical sense to various things.

Gitanjali Singh

(Batch 2016-20)

Assistant System Engineer,
Tata Consultancy Services

“

Four years at RKGIT have shaped my personality in wonderful ways. Meeting such amiable faculties, especially in the IT Department and sharing experiences with people from different backgrounds has only contributed to my learning and growing. Apart from academics, the platforms I got here, may it be in cultural, technical or literary fields have boosted up my confidence by many folds. I was particularly very interested and active in Cultural Activities and gladly during the process I became aware of my leadership traits as well. A college is supposed to nurture an overall development of a student and truly RKGIT did that for me.

Student Corner

The Reason

I had come down here for a reason,
Not to fade away after a failed
season!

But that sense of void and uneasiness
in the heart Pierces the self
confidence like the sharpest dart.

I don't know now, how, when and
from where to start,

All I know that this is not what I
wanted as a part. Life is challenging
and tough I have always known,

But never had thought that my inner
peace, in this way, shall be blown!

For I don't know the seeds that were
earlier sown.

For now it seems that the happiness
has elyded and forever gone! It takes
a fraction of second for me to laugh
and then cry. But deep inside the
heart knows that the overflowing
tears have turned dry.

It is not that I gave up and didn't even
try.

It was like doing it all but still ending
up with a smile so wry, Been years
now I have lost that dream, The
invisible tears and the broken heart
have now silenced that scream!

I remember I used to emit that happy
and positive beam, But the failures
and heart breaks have outweighed
them, they seem. I keep asking if I
was sent down to experience all the
pain, Then comes the inner voice of
hope und belief which somehow
keeps me sane!

Even with hope and faith in heart I
don't know the correct lane, All i
know is that I have to keep boarding
the life-long train!

I try to live and not just exist because
the world is too mean,

I still walk everyday, searching for the
light that is in this darkness of life,
tough to be seen!!

- Anjali Kaushik (2nd year)
