M.Tech
(Electronics & Communication Engg.)
2 Year Program

Research Objective:

The goal of post graduate programs at RKGIT is to develop professionals of high quality to cater to the needs of industry and academia. Such education will be based on a broad grasp of the fundamental principles of the sciences and scientific methods, a deep understanding of the specific area of specialization, and ability to solve new problems, and a capacity to learn continually and interact with multidisciplinary groups. Above all, RKGIT aims at developing in its students a capacity for free and objective enquiry, courage and integrity, and awareness and sensitivity to the needs and aspirations of society. The post-graduate programs are designed with the above goals in view. They include courses of study, seminars, project work, internships, and research leading to a thesis.
