He then introduced the guest speaker.

- **Brief details of the event highlights:** To create awareness on Entrepreneurship among under graduate students and to educate the young minds on success and failures of entrepreneurship and innovation a One Day Virtual Workshop was organized by IIC-RKGIT. Mr. Ashish D. Thombre was the guest speaker. He said that Entrepreneur is an innovative or independent-minded business person. An entrepreneur creates products & services. There are lots of scopes in the field of entrepreneurship. After completing the degree, students may open their own business. The scope of Entrepreneurship in India or in abroad is tremendous. Nowadays, the youth of the nation is much more focused towards starting their own business; this has given rise to a lot of new startups in our country. In the study of Entrepreneurship, students can learn the techniques to run the business in an effective way. In a simple way, students can say that Entrepreneurship means creating new things rather than sticking to conventional jobs & businesses.
