## Report on Demo Day: “AI Bot Battle:” on 8th & 9th June 2023

Institution innovation council of Raj Kumar Goel Institute of Technology, Ghaziabad Under Entrepreneurship, Innovation and Incubation Department at Raj Kumar Goel Institute of Technology, Ghaziabad organised a two-day knowledge sharing session on June 8th-9th , 2023, from 1:00 PM onwards titled AI Bot Battle. It was well-received by more than 125 participants. Prof. Puneet Chandra Srivastava,(Dean EII-RKGIT) started the session with a warm welcome to all the attendees, introduced the mission and vision of EII Department established at RKGIT campus, and gave an overview of its ‘ function & activities.

The primary objective of the event was to disseminate information about the latest advancements in AI chatbot technology, including prominent examples like ChatGPT, Siri, Jasper, Chai with AI friends, Alexa, and Midjourney. The event witnessed enthusiastic participation from more than 15 teams, showcasing the heightened interest and relevance of AI in today's technological landscape.

### Session Day-1

The first session delved into an overview of AI chatbots, their evolution, and their impact on society. It covered the history of AI chatbots, from early rule-based systems to the sophisticated neural networks powering contemporary models. The session also discussed the ethical considerations associated with AI chatbots, including bias mitigation and privacy concerns.

In subsequent sessions, each of the featured AI chatbots was explored in-depth:

1. **ChatGPT:** An introduction to the GPT-3 based chatbot and its capabilities. Participants learned about its natural language understanding and generation, as well as its diverse applications in content creation, customer support, and more.
2. **Siri and Alexa:** A comparison of Apple's Siri and Amazon's Alexa, discussing their voice recognition capabilities, integration with smart devices, and the growing trend of voice assistants in homes and businesses.
3. **Jasper:** Insights into Jasper, an AI chatbot designed for medical diagnosis and consultation. The session showcased how AI is revolutionizing the healthcare sector by providing accurate and timely information to both patients and medical professionals.

## **Session Day-2**

The second day of the event was marked by interactive workshops and team presentations. Participants were divided into groups, each assigned to research and present on one of the AI chatbots discussed earlier. These workshops provided a platform for participants to delve deeper into the functionalities, strengths, and weaknesses of each chatbot.

The team presentations showcased a diverse range of perspectives and applications. Participants demonstrated their understanding of the technology by illustrating how each chatbot could be harnessed in real-world scenarios. These scenarios included virtual assistants for productivity, language learning, mental health support, and more.

The event concluded with a panel discussion featuring experts from academia and industry. The panelists shared their insights on the future trajectory of AI chatbots, potential challenges, and the importance of continuous learning in the field of AI.

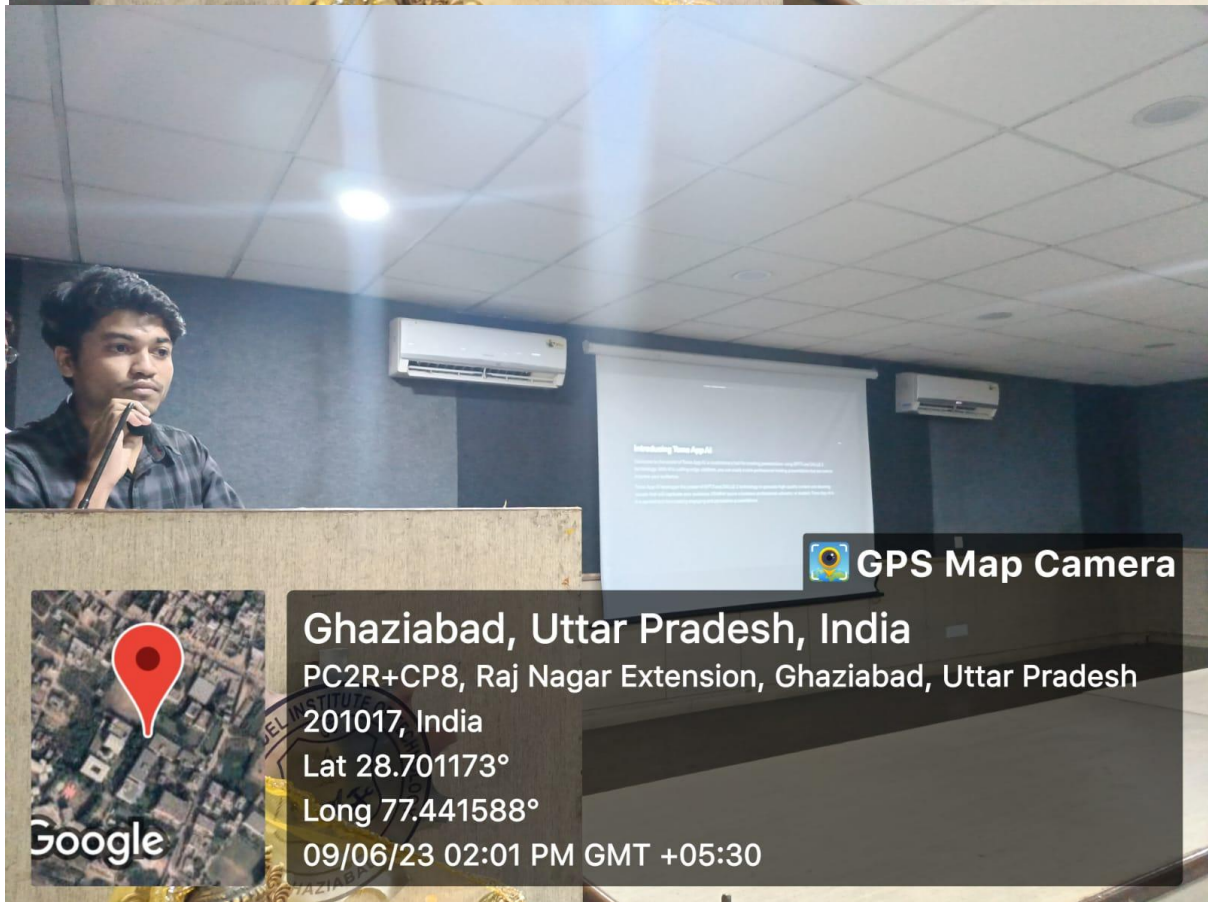

### **Conclusion:**

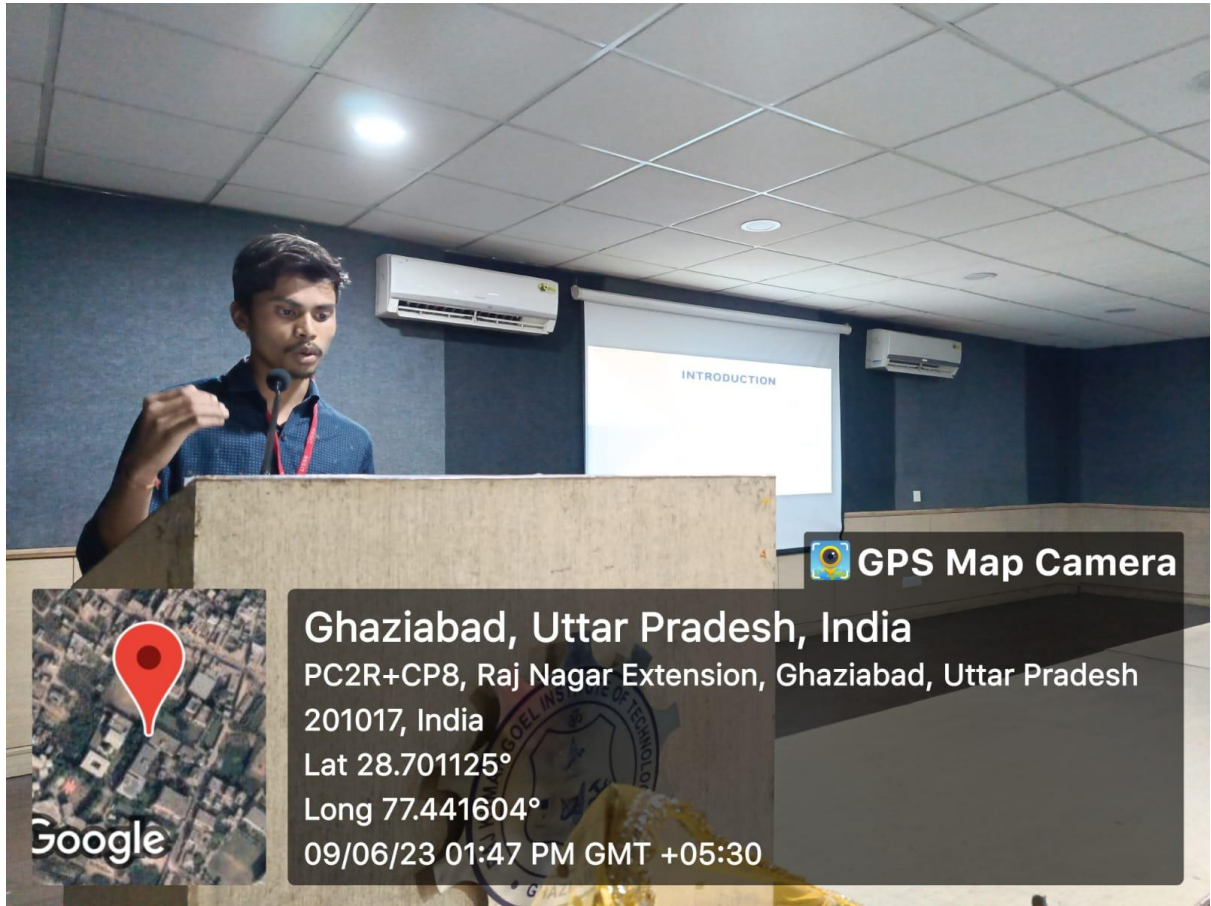

The "AI Bot Battle" knowledge sharing session organized by EII department was a resounding success, achieving its objective of enlightening students about the latest AI chatbot trends and their applications. The event fostered a dynamic learning environment through keynote speeches, in-depth sessions, interactive workshops, and engaging team presentations. With the participation of over 15 teams, the event served as a testament to the growing interest and relevance of AI in today's world.

By promoting knowledge sharing and fostering discussions on AI chatbots, this event not only enriched the participants' understanding but also contributed to the broader advancement of AI technology and its potential to reshape industries across the globe.

**Date: 8 th - 9th June, 1:00 PM onwards,  
Venue: Seminar Hall, D- Block.**
